INCOME-TAX.

Bombay, the 19th April 1924.

No. 1212.—The Central Board of Revenue have had under consideration for some time past the question of simplifying the procedure for dealing with claims for refund of income-tax under section 14 of the Indian Income-tax Act, 1922, from residents in England. At present under rule 34 of the Indian Income-tax Rules, 1923, applications for the refund of tax when the applicant is not resident in India are to be made:—

(1) to the Income-tax Officer of the district or area in which he was last charged to Indian Income-tax when so resident, or

(2) if he has never been so resident, to the Income-tax Officer of the district or area where the Income-tax for the refund of which application is made was deducted.

It sometimes happens that the claim for refund is made in the United Kingdom including the Irish Free State, from their Indian Income-tax in three or four different portions and have then to submit applications for refund to three or four Income-tax Officers and each such application has to be accompanied by a return of the total income of the applicant in British India. This arrangement is inconvenient and wasteful. The Board accordingly arranged that such claims will in future be dealt with by the High Commissioner for India. The following instructions are published for general information:—

1. All persons resident in the United Kingdom including the Irish Free State should submit applications for refund to the High Commissioner for India, under section 14 of the Indian Income-tax Act, 1922. Persons who are generally resident in India and are only temporarily in the United Kingdom including the Irish Free State will not be treated as persons resident in the United Kingdom including the Irish Free State for the purpose of these instructions.

2. The applications for refund should be in the form prescribed by rule 35 of the Indian Income-tax Rules, 1923, and should be accompanied by rules 37 and 38 of the Rules to be accompanied by—

(a) a return of the total income of the applicant in British India in the form prescribed by section 23 of the Indian Income-tax Act, and

(b) certificates prescribed by rules 33 and 34 under section 18 (2) or section 30 of the Act in respect of interest on securities or dividends from companies.

3. The year at which refund will be granted to the applicant, will be the difference between the rate applicable to the claimant's total income and the maximum rate of income-tax fixed by the Indian Finance Act, for the year in which the dividend was declared or the interest on securities was drawn.

4. In order to guard against the possibility of double refunds, the High Commissioner for India will after paying the refund send a list of such refunds to the Central Board of Revenue.

5. All certificates prescribed by section 18 (2) and 30 of the Act which are presented by applicants with claims for refund of tax, to the High Commissioner for India in England will be duly considered.

This arrangement will come into force from the 1st June 1924.

Resolved that the excess expenditure incurred be approved and that sanction of Government be obtained thereon.

81. Read a note by the Deputy Chief Engineer regarding that an expenditure of Rs. 10,000 was incurred on repairs to masonry bridges in the harbour during the year 1923-24, a credit of the sum of Rs. 5,000 sanctioned for the purpose in G.O. No. 361, Finance (Madras), dated the 26th June 1923, and requesting that the excess expenditure of Rs. 5,000 be sanctioned.

Resolved to approve the excess expenditure incurred, as well as to obtain the sanction of Government thereon.

82. Read again Resolution No. 46, dated the 25th May 1923, and G.O. No. 219, Finance (Madras), dated the 28th May 1923, approving of two estimates deliverable to Capital, one for Rs. 2,025 for the construction of a landing up pond at the head of the wharf and the other for Rs. 2,000 for reconstructing a powerful pump.

Read a note by the Deputy Chief Engineer reporting that the works have now been fully completed, the former at a cost of Rs. 1,636-5-4 and the latter at a cost of Rs. 2,454-0-0 and requesting sanction to the excess expenditure in the case of the latter work.

Resolved that the excess expenditure of Rs. 828-5-4 incurred on the construction of a powerful pump be approved and that sanction of Government be obtained thereon.

83. Read again previous Resolutions ending with Resolution No. 416, dated the 23rd November 1923, on the subject of the construction, for lease on paid terms in perpetuity, of quays not exceeding 100 ft. square each in the Trust's territorial limits Nos. 1 and II.

Read a note by the Traffic Manager, supported by the Chairman, recommending that the recommendation already recorded be extended up to the 30th September 1924.

Resolved to approve of the recommendation.

84. Read a note by the Chairman circulating the findings of the Committee appointed by Resolution No. 385, dated the 26th March 1923, to consider and report on the proposed increase of the Trust's Railway terminal charges together with notes thereon by the Traffic Manager and the Chief Accountant.

Resolved that the question of the proposed enhancement of the harbour terminal charges be brought up again for consideration after a period of six months.

85. Read again Resolution No. 841, dated the 15th February 1924, authorizing the Chairman to purchase locally from time to time a quantity of additional fuel oil in other smaller quantities of coal which was considered sufficient for the Trust's requirements of that kind during the current year in view of the increase of prices in the Trust's floating stock and in the home-burns to bring on board.

Read a note by the Deputy Chief Engineer stating that we may require a greater quantity of coal than the 600 tons above referred to owing to the delay in receiving the design "drawings" for the fuel oil and the difficulty of finding fuel with all the localities which are supplied by the Trust's floating stock and recommending the purchase of an additional 200 tons of Dudgeon's and from Messrs. Andrew Tate & Co., Madras, at Rs. 12 per ton net, after slack in the harbour.

Resolved to approve of the recommendation.

86. Read a note by the Deputy Chief Engineer, supported by the Chairman, stating that the services of the following additional staff will be required temporarily by the Engineering Department for a period of at least six years in connection with the two large construction works already

announced, viz., the Eastern extension of the South pier and the construction of a new deep water quay alongside the North breakwater and requiring action to the satisfaction of the Board—their pay being shared proportionately to the two works in question.

The Standard Barometer and Thermometer are used at 8 a.m., 10 a.m., 4 p.m. and 8 p.m. and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The station of the Barometer is twenty-two feet above the level of the sea, and the receiver of the rain-gauge is ten feet from the ground. The wind, rain and general weather registered are for the current United Day—free daylight to midnight.

The total quantity of rain collected since January 26 is 1.86 inches, the average day for the same period being 4.74 inches.
